PROFESSIONAL SUMMARY

Computer Science and Engineering (Cyber Security) student at Sri Krishna College of Engineering and Technology, Coimbatore, with a Diploma in Computer Science Engineering and interests spanning cybersecurity and software development. Technical experience includes Java, Spring Boot, React, MySQL, REST APIs, authentication, networking, and cybersecurity fundamentals. Interested in building secure applications and practical security solutions.

EDUCATION

B.E. COMPUTER SCIENCE AND ENGINEERING (CYBER SECURITY) Coimbatore

Sri Krishna College of Engineering and Technology (SKCET) • 2025

DIPLOMA IN COMPUTER SCIENCE AND ENGINEERING Dharmapuri

Laxminarayana Polytechnic College • 2023 – 2025

INTERNSHIP & TECHNICAL EXPERIENCE

JAVA APPLICATION DEVELOPMENT INTERN

E-Box / Amphisoft Technologies

Gained practical experience in Java application development and software development workflows, contributing to backend development and RESTful service integration.

FULL-STACK APPLICATION DEVELOPMENT | SKCET | 4 MONTHS | 2026 Developed knowledge of frontend and backend development, database integration, and REST API fundamentals. Learned to build full-stack applications by understanding application architecture and component integration.

CLOUD INFRASTRUCTURE TRAINING | SKCET | 2026 Studied virtual machines, computer networking, AWS cloud services, and cloud infrastructure management. Learned DevOps fundamentals, cloud deployment concepts, and infrastructure configuration.

Actively developing multiple real-world projects in cybersecurity and AI, focusing on threat detection, security analysis, and innovative solutions to practical challenges.

PROJECTS

AUREVIA

Developed a full-stack School Library Management System using Java, Spring Boot, React.js, and MySQL to manage books, members, borrowing, returns, and fines. Implemented REST APIs, JWT-based authentication, book search and filtering, and a responsive dashboard with Dark and Light Mode.

ASSETARC – INDUSTRIAL EQUIPMENT LIFECYCLE MONITOR

Java, Spring Boot, React, MySQL, Spring Security, JWT

Developing a full-stack application for industrial asset management, maintenance scheduling, equipment health metrics, and alerts. Uses REST APIs, database integration, and authentication.

AQ-ZTN – ADAPTIVE QUANTUM ZERO TRUST NETWORK FRAMEWORK

Zero Trust, Post-Quantum Cryptography, Intelligent Deception

Proposed a security framework combining adaptive trust evaluation, post-quantum cryptography, and intelligent deception for endpoint protection and threat response.

Q-VERIX – QUANTUM THREAT DETECTION AND VERIFICATION SYSTEM

Quantum-inspired verification, cryptographic threat detection

Developing a security project focused on verification, cryptographic threat detection, and secure key management.

VERI SENTINEL – INFORMATION VERIFICATION & CREDIBILITY INTELLIGENCE PLATFORM

Developed a full-stack information verification platform using React.js, TypeScript, Java, Spring Boot, Python, FastAPI, and MySQL to analyze news articles and assess their credibility. Implemented article and URL extraction, claim-level analysis, relevant source discovery, and verification to classify claims as Supported, Contradicted, or Unverified. Designed an analytics dashboard to present credibility assessments, verification statistics, and source coverage.

TECHNICAL & SECURITY SKILLS

- Cybersecurity fundamentals
- Ethical hacking fundamentals
- Vulnerability assessment fundamentals
- Network security & Digital forensics
- Java, Python, JavaScript
- SQL, MySQL, PostgreSQL
- Spring Boot, Hibernate/JPA, React
- REST APIs, JWT, Spring Security
- Git, GitHub, Linux, Kali Linux
- Wireshark, Burp Suite, Nmap, IAM

CERTIFICATIONS

TATA GROUP CYBERSECURITY ANALYST JOB SIMULATION – FORAGE

AWS TECHNICAL ESSENTIALS – AMAZON WEB SERVICES (AWS)

ETHICAL HACKER – CISCO NETWORKING ACADEMY

INTRODUCTION TO CYBERSECURITY – CISCO NETWORKING ACADEMY

PYTHON ESSENTIALS 1 & 2 – CISCO NETWORKING ACADEMY
